EDUCATION

Toc H Institute of science and technology **Ernakulam**
B.Tech Computer science and engineering *2021 - 2025*

- Active clubs: Google developer students club, TinkerHub Foundation
- Founded Core.ai – The official AI club of Toc H

WORK EXPERIENCE

Differentbyte **Ernakulam**
AI Developer *Sept 2024 – Dec 2024*

- Developed scalable backend systems using FastAPI ensuring optimized performance and reliability.
- Implemented CRUD operations with QdrantDB, enabling efficient data retrieval and storage.
- Built and deployed agents using Crew AI and LangChain, automating complex processing tasks.

Neuflo solutions **Remote**
AI/ML Developer *June 2023 – Jan 2024*

- Lead and managed a team of 4 people in developing solutions according to client requirements.
- Executed strategies, optimizing workflows, and contributed to a 5-lakh revenue increase.
- Designed AI solutions in image processing, NLP, and security domains, optimizing project efficiency.

Graphy by Unacademy **Remote**
Educator *Jan 2023 – Feb 2023*

- Created 50 hours of high-quality Python programming content for live audiences.
- Implemented successful social media campaigns to promote the content across multiple platforms.

PROJECTS

Interview360

- Application to help users prepare for technical interviews through automated interviews
- Technologies used: Retrieval augmented generation (RAG), OpenAI Embedding, Chroma DB, Flask.

First-aid Pro

- AI enabled first aid with automatic wound identification and real time treatment assistance
- Technologies used: Tensorflow, Flask, Flutter, Resnet50.

Gen-O-Sys

- Enterprise application that optimizes Hospital management systems (HMS) using Gen-AI
- Technologies used: HTML/CSS, JavaScript, Flask, Langchain, LlamaIndex, Huggingface.

SKILLS & INTERESTS

Skills: Python | Flask | FastAPI | PostGresql | MySQL | HTML | CSS | Java | C

Machine learning tools: Tensorflow | Scikit – Learn | Pandas | Numpy | MathPlotLib | Data analytics | Langchain | Prompt engineering

Tools: Git | Linux | Docker | Google Colab | MS Word | Jupyter Notebooks | VSCode | AWS

Soft skills: Research | Client management | Training | Leadership | Documentation

ACHIEVEMENTS.

- **Spark Venture 2024**: Acquired funding of Rs 75,000 for project First-aid pro and secured 2nd place in for Spark venture 2024
- **Frappe workshop**: Led a successful workshop on Frappe, resulting in 70+ registered participants and generating a revenue of Rs 14,000
- **Workshops and sessions**: Trained 400+ students on different technical topics across multiple colleges in Kerala in both online and offline modes.
